In IR' a surface is the set of points or and y that ratisfy an equation. Surface: Eg. y = mx+b Eg: y= n2 Eg: y=2 Example: What surfaces in R3 are represented by the following equations? (a) z = 3 (b) y = 5

Example: (a) which points (x,y, z) satisfy the equations (b) what does the equation  $x^2 + y^2 = 1$  represent in  $\mathbb{R}^3$ ?
